

since 1998

Once upon a time... The passion for tradition

We are a family company

founded in 1998 by the will of Aldo and Tea Amadori, our parents.

We are specialized in the production of Pesto Genovese and other typical sauces of the Italian tradition.

We bring the same pride and the same passion into every product today, as we have done over the last 24 years. Our production plant is located in Genova Pra', the "cradle" of Pesto and Genovese Basil PDO.

Thanks to the territoriality, the qualified staff, the careful selection of raw materials and the constant attention throughout the whole process, we are able to guarantee the high quality of our products. Moreover, since 2003 we have been certified as organic producers.

We constantly devote our attention to the issues of proper nutrition, organic farming and food intolerances. These principles, transmitted by our parents, accompany us to today during our choices.

For us Organic products mean: pay attention to health, respect our territory and also gain in terms of flavour and quality.

We are very attentive to technological innovations and food safety standards. We have adopted the HACCP self-control system to guarantee the quality and safety of our production. We are also certified by IFS, BRC and ISO 22005:2007 and this reflects our commitment to food hygiene, traceability and quality.

Year by year our company grows and our products are more and more recognized as synonymous with passion and tradition.

Gluten Free

Marika e Simone Amadori
