SIMENS

Our production

Simens has three ultimate production departments divided and respectively dedicated to the production of vegetables and fish products. All processes are highly automated and monitored from the control of various security systems: metal detectors, x-ray, logger probe, seam video monitor, weighing scale.

Our Clients

The approach and policy we adopted during our commercial history allowed us to acquire important Clients among the major Retailers in domestic and foreign markets. Our Private Label Products are regularly on the shelves of major Retailers, Independents, Discounters, and in the Food Service too.

SIMENS

Our Service

The private label sector has always been one of the two pillars of our industrial philosophy. The company through its research shall meet the requirements of major Italian and international Retailers by creating new recipes, customized and sensitive to market trends, recipes that already through our Brands are being tested and produced; an additional guarantee for our customers who want to entrust their private label projects.

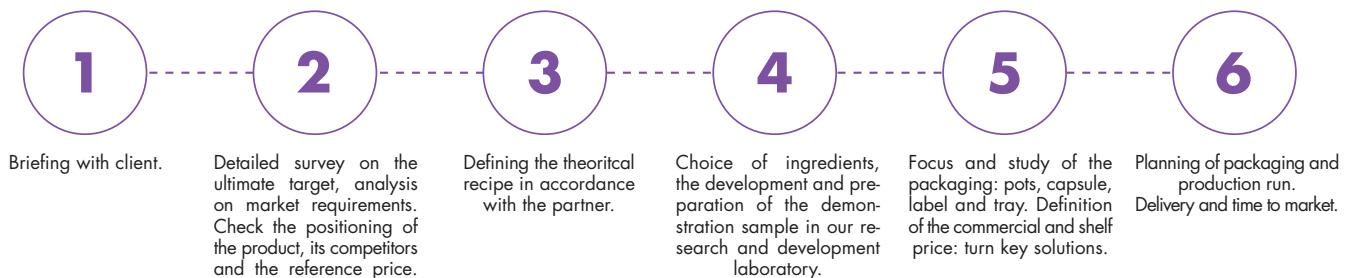

Our research and development laboratory along with a wide range of sizes and our production flexibility set us as an ideal partner in the production of canned food for both the retail and the food service industry and for the PL.

Our production while relying on the taste of Made in Italy is widely looking towards international recipes, and this is allowed thanks to technology implementations that the company has supported in recent times.

Our company also provides graphics support for the creation of your label and packaging, thanks to the cooperation with some Partners who are constantly updated on trend of the food industry marketing.

Our protocol for the design and creation of a new product in PL is below:

Our Service in 6 steps
