Green Replay

Committed to reducing environmental impact, we have created a category of household cleaning products that incorporate recycled materials and can be further recycled again, thus contributing to an environmentally friendly life cycle.

The first compostable cloth.

When you opt for Arcasa's biodegradable and compostable Green Replay cleaning cloth, you support a brand that is firmly committed to protecting the environment. Our mission is to offer products that combine effectiveness and sustainability, contributing to a greener future for generations to come.

The bamboo fiber used in the cloth is not only eco-friendly, but also highly functional. Thanks to the natural properties of bamboo, the Activia Arcasa cloth is able to prevent the formation of bacteria, helping to keep surfaces clean and fresh for longer, without the risk of bad odors. This feature makes it ideal for prolonged use, while ensuring a healthier home environment.

Dust Catchers

A complete line of products to remove dust from floors and furniture, made in special microfibre fringes with very high electrostatic capacity. Added to these are the non-woven cloths (TNT), perfect for quickly capturing dust even in the most difficult places, which can be used either alone or with the help of a specific tool.

Brooms and accessories

The company produces pet brooms with soft eco-fibres and dust catchers, suitable for indoor environments, and brooms with strong eco-fibres, designed for outdoor environments but also for carpets and rugs. All Arcasa brooms, available both with and without handle, allow you to reach dirt even in the most difficult corners with a single, light pass.

Sponges

Arcasa makes cellulose sponge cloths for cleaning all kitchen and bathroom surfaces; these are super-absorbent sponges, both soft and shaped combined with abrasives, for a more effective cleaning of dishes and pans. In addition to these items, there are also abrasive spirals, steel straws and rolls, designed for cleaning dishes and removing particularly stubborn dirt.
