

# Le Creme di Pà®

## Easy, Quick and of High Quality.

**Creme di Pà** is a new line of spoon desserts made with milk and high-quality natural ingredients, ready to be enjoyed at any time of the day when a sweet break is desired.

The assortment includes the classic **Coffee Cream**, whose intense flavour blends with the creaminess of fresh cream, the delicious **Pistachio Cream**, with its unique Mediterranean aroma, and the **Gianduia Cream**, a harmonious fusion of hazelnut and cocoa flavours, an icon of Piedmontese confectionery tradition, the nourishing **Zabaione Cream**, made from eggs and Marsala wine, whose distant origins date back to the 16th century, also perfect when served hot, and finally the **Hazelnut Cream**, with its delicate scent of toasted hazelnuts.

All **Creme di Pà** creams are ready for consumption: simply refrigerate them in a normal refrigerator and pour them directly from the packet into the glass to enjoy their aromas and appreciate their creamy texture. They are also suitable for use with the slush machine to obtain a fresh delicacy ideal for the summer months.

Thanks to the UHT treatment they undergo, **Creme di Pà** can be stored at room temperature until their opening.
